

EXPERIENCE™ SERIES 830 LINE

PRECOR[®]
Fitness Made Personal

Experience™ Series 830 Line

The Experience Series 830 Line console focuses on the essential stats and displays that keep exercisers moving. From the start, you'll see that the form and function of the P30 console complements other Precor consoles, right down to the same easy-to-use motion controls.

The P30 console features a mobile device charger, enabling exercisers to charge most mobile phones including phones running Android®, Apple®, BlackBerry® and Windows® operating systems, and small MP3 players. It also provides charging to tablets and electronic book readers.

An advanced, LED-based display clearly delivers the essential stats during the workout, including calories burned, time remaining/elapsed, heart rate, speed, pace, and distance. And, just as with all Experience Series cardio, the 830 Line features the same precision-designed, reliable, and approachable cardio equipment from Precor.

15.6 in / 39.6 cm Personal Viewing System (PVS)

800 / 900 MHz Entertainment Cap
