

# CIC800 INDOOR CYCLE

The CIC800 Indoor Cycle excels in three critical areas – durability, comfort and performance. It is a perfect addition to a club, corporate fitness/recreation center, school or hotel because the stout design will withstand hours of consistent use. The needle bearings that encompass the pedals and flywheel axle, industrial grade Hutchinson poly-v belt, and our three-piece crank work synergistically to create the perfect formula for durability and performance. The fore/aft/up/down adjustments of the handlebars and seat along with SPD dual pedal design provide a comfortable fit for nearly any size rider.

## **CIC800** INDOOR CYCLE

- Magnetic resistance for smooth and consistent, maintenance-free operation
- Micro fore/aft adjustments on seat and handlebars
- Reliable pop-pin up/down adjustments on seat and handlebars
- Commercial grade Hutchinson poly-v belt is both smooth and reliable
- Molded rotary knob for comfortable resistance adjustments and quick-stop operation
- Dual pedal design provides options for both SPD and toe-clip convenience
- Aluminum seat and handlebar posts with stamped height settings for quick reference

Comfortable, adjustable saddle with micro fore/aft and reliable pop-pin up/down adjustments

Aluminum handlebar post with stamped height settings

Built-in water bottle holder conveniently located between handlebars

Aluminum seat post with stamped height settings

Quick-stop brake is within easy reach

Performance PVC coated handlebars with micro fore/aft and reliable pop-pin up/down adjustments

Hutchinson poly-v belt drive is silent and commercial grade

Magnetic resistance provides consistent, maintenance-free operation

Double-link pedals – SPD/toe-clip

Perimeter weighted, high-inertia 37 lb flywheel

Heavy-duty steel frame

## CIC800 PREMIUM FEATURES

The premium ISIS bottom bracket cartridge ensures greater surface area contact, a sturdier connection, and less maintenance than a traditional square joint. The Hutchinson drive belt, ISIS bottom bracket cartridge, pulley size and material, gear ratio and three-piece crank have been carefully chosen on the CIC800 and incorporated into the overall design to assure optimal performance and durability. These components, along with an ergonomically correct frame design and full fore/aft/up/down adjustability, combine to make the perfect indoor cycle for your facility.

### EQUIPMENT SPECIFICATIONS

<b>Resistance</b>	magnetic, rotary knob; micro adjustments
<b>Drive Train</b>	industrial grade Hutchinson poly-v belt and ISIS oversized bottom bracket
<b>Flywheel</b>	perimeter weighted 37 lb flywheel; high inertia system
<b>Seat</b>	racing saddle
<b>Pedals</b>	dual pedal design with SPD and toe cage
<b>Frame</b>	high-strength steel with durable powder-coat paint
<b>Handlebar</b>	PVC coated, multi-grip design, built-in water bottle holder
<b>Handlebar/ Seat Posts</b>	aluminum with stamped numerical height indicators
<b>Adjustments</b>	up/down – reliable pop-pin adjustments; fore/aft – knob tightening micro adjustments
<b>User Size Range</b>	typically 4'11" to 6'5" tall
<b>Dimensions</b>	42" L x 21" W x 41" H
<b>Product Weight</b>	126 lb
<b>Max User Weight</b>	350 lb
